Hannay Reels. Durable reels you can depend on.

When it's all on the line – Hannay reels are ready when you are. Our ruggedly designed and constructed reels save space on your truck and help make your payout and pickup quicker and easier. All of our reels are built to individual vehicle specs because we know that every truck manufacturer's design is different. Rely on Hannay Reels when you need to deliver big performance in tight spaces.

The rugged **1500 Series** hose reel is ideal for utility air (or breathing air when specified). The **1600 Series** reel handles live electric cable and is invaluable when you need power at the scene of an emergency.

The reels from the **2000**, **2200**, and **2500 Series** are all dual hose reels unsurpassed in rescue situations that require hydraulic hose for power tools such as cutters, spreaders, or jacks.

Summary of Standard and Optional Features for Rescue Reels

Series EF1500	Series ECR1600	Series EF2000	Series TEF

Series **TEF2500**

• Power Rescue Tools • Hydraulics

To handle dual hydraulic 1/4" I.D. hose.

- Chain and sprocket drive powered by an electric gear motor.
- Standard inlets: Two 90° dual passage swivel joints with 1/4" female NPT threads.
- Standard outlets: Rescue tool manufacturer must be specified to determine threads and packing material required.
- Pressures to 10,500 psi (724 bar).
- Temperatures from -20°F to +225°F (-29°C to +107°C).
- Dual spools to operate 2 independent hydraulic rescue tools.
- Removable chain guard for added safety and easy maintenance.
- Optional 4-way rollers and mounting brackets available with adjustable positions including: forward-facing, vertically-facing and 30° angle.

**TEF2500**

Standard configuration shown with optional rollers in Bumper Mount position

Optional 4-way Rollers with adjustable positions available, see available roller positions below. Consult factory for specifications.

Notes: 1. Specifications subject to change. 2. Be sure to check dimensions and weights prior to ordering. † Hose capacity is a tight fit and only valid for 100 ft. of Hurst (5,000 psi) twin hose. †† Model TEF2516-17-18 is the preferred model for all 100 ft. hose assemblies.					NOTICE: A flexible connector must be used between the inlet pipe and the inlet swivel joint. * Dimensional weight may apply when shipped as a parcel package (via FedEx or UPS Ground). ***X, Y indicate mounting holes.			
Available Roller Positions 								

Series TEF reels can be built in any combination of hydraulic, air or electric cable applications. Refer to additional TEF Series reels on pages 4 & 5. Consult factory for specifications and a quote.

Series TEF1500

• Power Rescue Tools • Utility or Breathing Air

To handle single 1/4", 3/8", and 1/2" I.D. hose.

- Chain and sprocket drive powered by an electric gear motor.
- **Standard inlet: 90° ball bearing swivel joint, 1/2" female NPT threads.
- **Standard outlet: 1/2" female NPT threads.
Other sizes and threads can be furnished and must be specified.
- Available for Low PSI breathing air to 3000 psi (207 bar) and High PSI breathing air to 6000 psi (414 bar). See Notes 3 & 4 below for model and dimension specifications.
- Temperatures from +20°F to +400°F (-7°C to +204°C).
- Dual spools to operate 2 independent air hoses.
- Removable chain guard for added safety and easy maintenance.
- Optional 4-way rollers and mounting brackets available with adjustable positions including: forward-facing, vertically-facing and 30° angle.

TEF1500

Standard configuration shown with optional rollers in 30 Degree Tipped position

Optional 4-way Rollers with adjustable positions available, see available roller positions below. Consult factory for specifications.

Series TEF reels can be built in any combination of hydraulic, air or electric cable applications. Refer to additional TEF Series reels on pages 3 & 5. Consult factory for specifications and a quote.

Series **TEF1600**

• Power Rescue Tools • Electric Cable

To handle live electric cable.

- Chain and sprocket drive powered by an electric gear motor.
- 3-conductor, 30-amp collector assembly with #10 gauge wiring.
- Optional 4-conductor available, must specify.
- Dual spools to operate 2 independent electric power tools.
- Removable chain guard for added safety and easy maintenance.
- Optional 4-way rollers and mounting brackets available with adjustable positions including: forward-facing, vertically-facing and 30° angle.

Optional 4-way Rollers with adjustable positions available, see available roller positions below. Consult factory for specifications.

Series F1500

• Utility Air or Breathing Air Hose

To handle single 1/4", 3/8", and 1/2" I.D. hose.

- Lightweight, compact reels designed for long lengths of hose in manual and power rewind.
- Manual rewind reels include: cam-lock drag brake, spring actuated pin lock and direct crank rewind.
- Power rewind reels include: chain and sprocket drive powered by electric, hydraulic or air motor.
- ** Standard inlet: 90° ball bearing swivel joint, 1/2" female NPT threads.
- ** Standard outlet: 1/2" female NPT threads. Other sizes and threads can be furnished and must be specified.
- Roller and roller mounting brackets are accessory items. Specify roller position.
- F and FL1500 reels: pressures to 3000 psi (207 bar).
- FH1500 reels: pressures up to 6000 psi (414 bar).
- Temperatures from +20°F to +400°F (-7°C to +204°C).

Optional hose package shown

Optional External Mounting Brackets

Part No. 9906.0027.

Add 2-1/2" to the X dimensions shown in the chart.

PARTS DRAWING – ISO 90

Notes:

- Specifications subject to change.
- Upon request, reels can be supplied with drum lengths other than shown and with disc sizes in other diameters.
- Weights shown in chart are for manual rewind models. Add these amounts for power rewind models (does not apply to FedEx or UPS):

	Net lbs/kg	Ship lbs/kg
Electric	18/8.2	18/8.2
Air	15/6.8	15/6.8

- When ordering power rewind models, prefix model number with:
A = Air Rewind
E = Electric Rewind
 (Air rewind reels are supplied with control valve and 18" air hose; 12v and 24v DC rewind reels are supplied with switch and solenoid.)

- Model Designations:
F1500 = Utility Air Applications
FL1500 = Low Pressure Breathing Air Applications
FH1500 = High Pressure Breathing Air Cascade Systems

For example: **EFL1514-17-18**=Electric Rewind, Low Pressure Breathing Air.

- Add 2-1/2" to "E" dimension and 1/2" to "G" dimension with assembly "C" roller installed in top wind (TR) position.
- Manual rewind available in RT or LB configurations only.
- Be sure to check dimensions and weights prior to ordering.**
- Some roller options may prohibit the use of our molded chain guard.

NOTICE: A flexible connector must be used between the inlet pipe and the inlet swivel joint.

* Dimensional weight applies when shipped as a parcel package (via FedEx or UPS Ground).

** Stainless steel internals are required for breathing air applications.

***X, Y indicate mounting holes. See page 2.

Series ELF1500/ESF1500

• Utility Air or Breathing Air Hose

To handle 1/4", 3/8", and 1/2" I.D. hose.

- Chain and sprocket drive powered by an electric gear motor.
- ** Standard inlet: 90° swivel joint with 1/2" female NPT threads.
- ** Standard outlet: 1/2" female NPT thread.
- Other sizes/threads can be furnished and must be specified.
- ELF and ESF1500 reels: pressures to 3000 psi (207 bar).
- ELFL and ESFL1500 reels: pressures to 3000 psi (207 bar).
- ELFH and ESFH1500 reels: pressures to 6000 psi (414 bar).
- Temperatures from +20°F to +400°F (-7°C to +204°C).

* Dimensional weight applies when shipped as a parcel package (via FedEx or UPS Ground).

** Stainless steel internals are required for breathing air applications.

*** X, Y indicate mounting holes. See page 2.

ELF1500

ESH1500

Series F2000 | Dual Hose

• Power Rescue Tools • Hydraulics

To handle dual 1/4" I.D. hose.

- Two swivel joint inlets and two outlet risers to handle two equal lengths of hose.
- Manual disc rewind or chain and sprocket rewind powered by an electric or compressed air motor.
- Adjustable cam-lock brake on disc rewind models is standard.
- Power rewind reels are not supplied with a brake. Optional drag brake is available. Add 3/4" to the "F" dimension shown in the chart.
- Standard inlets: 90° swivel joints, 1/4" female NPT threads.
- Standard outlets: Rescue tool manufacturer must be specified to determine threads and packing material required.
- Pressures to 10,500 psi (724 bar).
- Temperatures from -20°F to +225°F (-29°C to +107°C).
- Rollers and roller mounting brackets are accessory items. Specify roller position.
- Polished stainless steel discs and sprocket with chrome frame are available, consult factory.

Carrying handles optional.
(Add 2 inches to "G" dimension)
Part No. 9955.0023

Optional External Mounting Brackets

Part No. 9906.0027.
Add 2-1/2" to the X dimensions shown in the chart.

PARTS DRAWING – ISO 101

Air	15/6.8	15/6.8

- When ordering power rewind models, prefix model number with:

A = Air Rewind
E = Electric Rewind
 (Air rewind reels are supplied with control valve and 18" hose; 12v and 24v DC rewind reels are supplied with switch and solenoid.)

- Add 2-1/2" to "E" dimension and 1/2" to "G" dimension with assembly "C" roller installed in top wind (TR) position.
- Be sure to check dimensions and weights prior to ordering.**
- Some roller options may prohibit the use of our molded chain guard.

NOTICE: A flexible connector must be used between the inlet pipe and the inlet swivel joint.

* Dimensional weight applies when shipped as a parcel package (via FedEx or UPS Ground).

** Swivel joints required for Hurst Systems increase the "F" dimension. Add 3/8" for power rewind and 3/4" for disc rewind.

*** X, Y indicate mounting holes. See page 2.

Technical drawing of the reel showing dimensions A, B, C, D, E, F, G, H, X, and Y. The drawing includes a side view and a top view. The side view shows dimensions A, B, C, D, E, F, and G. The top view shows dimensions H, X, and Y. The dimensions are defined as follows:

- A: Overall width of the reel.
- B: Width of the disc.
- C: Width of the roller.
- D: Width of the base.
- E: Overall height of the reel.
- F: Overall height of the reel with the roller.
- G: Height of the roller.
- H: Height of the disc.
- X: Mounting hole dimension.
- Y: Mounting hole dimension.

Dual
Hose

Series **ELF2000/ESF2000**

• Power Rescue Tools • Hydraulics

To handle dual hydraulic 1/4" I.D. hose.

- Chain and sprocket drive powered by an electric gear motor.
- Standard inlets: 90° swivel joints, 1/4" female NPT threads.
- Standard outlets: Rescue tool manufacturer must be specified to determine threads and packing material required.
- Pressures to 10,500 psi (724 bar).
- Temperatures from -20°F to +225°F (-29°C to +107°C).

Notes:

1. Specifications subject to change.
2. Upon request, reels can be supplied with drum lengths other than shown.
3. 12v and 24v DC rewind reels supplied with switch and circuit breaker.

4. Be sure to check dimensions and weights prior to ordering.

NOTICE: A flexible connector must be used between the inlet pipe and the inlet swivel joint.

* Dimensional weight applies when shipped as a parcel package (via FedEx or UPS Ground).

** Swivel joints required for Hurst Systems increase the "F" dimension. Add 3/8" for power rewind and 3/4" for disc rewind.

*** X, Y indicate mounting holes. See page 2.

ELF2000

ESF2000

Series EF2200 | Dual Hose

• For CORE™ Hydraulic Dual Hose Rescue Tools

To handle hydraulic Holmatro CORE Technology™ coaxial twin hose.

- Lighter weight hose and single fitting connection when compared with traditional rescue tool hose.
- Chain and sprocket drive powered by an electric motor.
- Adjustable spring drag brake standard on all models.
- CORE Technology™ swivel joint inlet and fluid path.
- Optional factory installed 4-way roller guide available.
- Pressures to 10,500 psi (724 bar).
- Temperatures from -30°F to +225°F (-34°C to +107°C).
- Divider disc separates hose from adapter block outlet.
- Optional polished stainless steel discs and sprocket with chrome frame.

Optional External Mounting Brackets

Part No. 9906.0027.
Add 2-1/2" to the X dimensions shown in the chart.

Left top shown
Lead-in hose is optional

Optional roller assembly C2 shown

Notes: 1. Specifications subject to change. 2. Electric rewind models available in either 12v or 24v DC. 3. Reels supplied with switch and solenoid. 4. Be sure to check dimensions and weights prior to ordering. † Hose capacity is a tight fit and only valid for Hurst hose. †† Model EF2516-17-18 is the preferred model for all 100 ft. hose assemblies. The narrower model EF2514-17-18 will only hold 100 ft. of Hurst (5000 psi) twin hose and only when perfectly wrapped.					NOTICE: A flexible connector must be used between the inlet pipe and the inlet swivel joint. * Dimensional weight may apply when shipped as a parcel package (via FedEx or UPS Ground). ** Swivel joints required for Hurst Systems increase the "F" dimension, add 3/4". *** X, Y indicate mounting holes. See page 2.			

Series CR1600

• Electric Cable • On-site Power

To handle live electric cable.

- Choose removable crank rewind or chain and sprocket drive powered by an electric or compressed air motor.
- Adjustable cam-lock brake on crank rewind models.
- Optional strap brake available on power rewind models.
- 3-conductor, 45-amp collector assembly with #8 gauge wiring.
- Consult factory for additional conductors available at extra cost.
- Rollers and roller mounting brackets are accessory items. Specify roller position.

**Series ECR1600
(power rewind)**
Standard configuration and optional cable package shown

Notes:

- Specifications subject to change.
- Upon request, reels can be supplied with drum lengths other than shown and with disc sizes in other diameters.
- Weights shown in chart are for manual rewind models. Add these amounts for power rewind models (does not apply to FedEx or UPS):

	Net lbs/kg	Ship lbs/kg
Electric	18/8.2	18/8.2
Air	15/6.8	15/6.8

- When ordering power rewind models, prefix model number with:

A = Air Rewind
E = Electric Rewind

(Air rewind reels are supplied with control valve and 18" air hose; 12v and 24v DC rewind reels are supplied with switch and solenoid.)

- For reels with 4 conductors, 45-amp collector assemblies, add 2" to "F" dimension.
 - Add 2-1/2" to "E" dimension and 1/2" to "G" dimension with assembly "C" roller installed in top wind (TR) position.
 - Be sure to check dimensions and weights prior to ordering.**
 - Some roller options may prohibit the use of our molded chain guard.
- * Dimensional weight applies when shipped as a parcel package (via FedEx or UPS Ground).

*** X, Y indicate mounting holes. See page 2.

Cable Selections

Power/Control Cable		
Wire Size (AWG)/ Conductors	Area (Per Conductor)	
	Circ. mils	Sq. mm
12/3 or 12/4	6500	3.3
10/3 or 10/4	10,500	5.3

Connector Options

Straight Blade (3 or 4 blade available)	Twist Lock (3 or 4 blade available)
--	--

Straight blade or twist lock connectors and plugs can be supplied.

Be sure to specify amperage, voltage, and NEMA designation.

Optional External Mounting Brackets

Part No. 9906.0027.

Add 2-1/2" to the X dimensions shown in the chart.

Series ELFCR1600/ESFCR1600

• Electric Cable • On-site Power

To handle live electric cable.

- Chain and sprocket drive powered by an electric gear motor.
- 3-conductor, 30-amp collector assembly with #10 gauge wiring.
- 4-conductor can be specified as an option.

The technical drawing illustrates the CR16-14-16 reel from two perspectives: a side view and a front view. The side view on the left shows the reel's profile with dimensions A (width of the base), B (width of the central hub), C (height of the central hub), F (total width of the reel), G (total height of the reel), and H (height of the base). The front view on the right shows the circular face of the reel with dimensions D (width of the base), E (width of the reel), and H (height of the base). The drawing also shows the cable being reeled onto the reel.

Model **C16-10-11/C20-14-16**

• Portable Storage Reels

No live connections.

Model C16-10-11

- Small, lightweight, durable.
- Adjustable cam-lock drag brake.
- Optional storage drum extension.

Model C20-14-16

- Strong, portable.
- Adjustable cam-lock drag brake.
- Permanent crank rewind.
- Optional pin lock available.
- Optional storage drum extension.

Model C16-10-11-DE

Model C20-14-16

Series FN700

• Utility Air or Breathing Air Hose

To handle 3/16" through 1/2" I.D. hose.

- Heavy-duty spring motor.
- Narrow frame and compact mounting base.
- Non-sparking ratchet assembly.
- Declutching arbor to prevent damage from reverse winding.
- ** Standard inlet: 90° balanced pressure swivel joint, 1/2" female NPT threads. Full flow swivel joint required for breathing air (FLN and FHN).
- ** Standard outlet: 1/2" female NPT threads. Other sizes and threads can be furnished and must be specified.
- FN and FLN700 reels: pressures to 3000 psi (207 bar).
- FHN700 reels: pressures up to 6000 psi (414 bar).
- Temperatures from +20°F to +400°F (-7°C to +204°C).
- Consult factory for other pressures and temperatures.
- 4-way roller assembly is standard. Roller position must be specified.
- Constant tension is available – consult factory.
- Hose stop required. Order Part No. 9922.0200. Must specify hose O.D.

FLN700 shown

Shown with optional Full Flow swivel joint. Joint is stainless steel for breathing air.

- Specifications subject to change.
 - Reel models and capacities shown are for standard drag applications; for vertical lift or constant tension applications, consult factory.
 - Other sizes, from standard components, available on request.
 - Model Designations:
 - FN = Utility air applications
 - FLN = Low pressure breathing air applications
 - FHN = High pressure breathing air systems (6000 psi)
 For example: FHN 716-14-16C is a high pressure breathing air reel.
 - Be sure to check dimensions and weights prior to ordering.
- NOTICE:** A flexible connector must be used between the inlet pipe and the inlet swivel joint.
- * Dimensional weight applies when shipped as a parcel package (via FedEx or UPS Ground).
- ** Stainless steel internals are required for breathing air applications.

Accessories

• Utility Hose Rollers • Circuit Breakers • Speed Control Accessories

Utility Hose Rollers

Stainless steel rollers and cast alloy mounting blocks for use on the reel, on cabinet door openings, truck platforms, and similar locations where sharp edges may cut or damage hose or cable.

Specifications: 1-1/2" diameter stainless steel rollers, stainless steel rod, Delrin bearings, plated mounting blocks, and fasteners.

To Order: If the rollers are to be mounted on a Hannay reel, just give the model number of the reel. If the rollers are to be mounted separately from the reel, give the horizontal and vertical roller lengths desired (dimensions Z and W), or the horizontal and vertical distances desired between mounting holes (dimensions X and Y).

Also available factory installed on the reel. See Hannay parts list ISO-115 for further information.

RCB Kits (Reel-Mounted Relay/Circuit Breaker Modules)

RCB kits are compact, weather-resistant kits that consist of a manual reset circuit breaker and a solid state relay (which replaces the solenoid). These kits can be factory installed when ordering reels, leading to significant labor savings and eliminating the need to fabricate and mount a bracket.

RCB kits are designed to work with all rescue reel models (Series 1500, 1600, and 2000). If you already have a reel and would like to install an RCB kit yourself, call Hannay Reels or your local dealer for stand-alone pricing and part numbers.

Speed Control Accessories

Model SR-50

This is an economical fixed speed control, offering 10 speeds.

ITEM DISCONTINUED
Please contact factory for replacement part.

Order using Hannay Part No. 9917.0082.

Speed Control Accessories

Model MD-70

This is a variable speed control, allowing the user full control over the motor speed. Works on both 12v and 24v motors.

Order using Hannay Part No. 9917.0080.

Speed Control Accessories

Model MD-1225S

This is variable speed control for 12v motors that also includes a push-button switch, manual reset 25-amp circuit breaker, and relay.

Order using Hannay Part No. 9917.0070.

NOTE: Several other speed controls, switches, and reversing switches are available (for 12v, 24v, and 115v). Consult factory for assistance.

Hannay Reels Sales Policies

Hannay Reels 3-Year Limited Warranty

Products manufactured by Hannay Reels, Inc. ("Hannay") are warranted for 3 years from date of shipment when properly installed, maintained, and operated in accordance with Hannay instructions. In no event will Hannay have a warranty obligation for normal wear and tear, or for products that have, at Hannay's determination, been subjected to accident, abuse, misapplication, improper installation or improper maintenance. Common examples of normal wear and tear would include paint finish, swivel joint seal wear, and switch or motor brush wear.

Hannay makes no warranties, express or implied, other than those included in this warranty statement, and we disclaim any implied warrant of merchantability or fitness for any particular purpose. Hannay will not be liable for any consequential, incidental, or indirect damages from any cause whatsoever.

Failure to use a flexible inlet connection on any live hose reel will void the swivel joint warranty. Failure to use a properly sized circuit breaker with any electric rewind motor will void the electric motor warranty. Failure to use a filter and lubricator on any air rewind motor will void the air motor warranty. Failure to follow all procedures outlined in the Safety Guidelines document will void the warranty.

Components not manufactured by Hannay will be subject to the original manufacturers' warranties. Examples of such components include: hose and cable, motors, speed controls, and switches, swivel joints and seals, slip ring and brush assemblies.

Equipment which proves to be defective upon our inspection will be replaced free of charge, including freight to the customer. Our responsibility ceases upon delivery to any common carrier and we do not, unless previously instructed, insure shipments beyond point of delivery to such carrier. **No material will be accepted for return without a return goods authorization (RGA).** This warranty extends to the replacement or repair of the reel or part (no labor).

Hannay reserves the right to modify or alter materials, dimensions, design, and construction when necessary to improve the performance of the reel and/or accessories, or to meet delivery requirements.

Notice on Reel Finish

Standard finish on Hannay reels is a high performance modified acrylic enamel paint. Standard color is metallic graphite. Other colors available at no additional cost include red, white, black, and primer.

Most of the major components on standard reels are e-coated prior to receiving final topcoat paint finish. This combination of e-coat and enamel topcoat will meet the finish requirements of most customer applications and environments.

In cases where requirements cannot be met with the standard finish, Hannay Reels can coat any model reel with an automotive primer, allowing application of final coating at your facility. Alternatively, Hannay Reels can provide a quote for matching a customer-provided paint specification. For further information, please contact your Hannay Reels sales engineer and a special paint request form will be sent to you.

For environments where no paint finish is suitable, we offer both aluminum and stainless steel (304 grade) construction on most reel models.

Return Goods Policy

All Hannay reels are built to order. These orders are typically placed into production within 1 business day of receipt. Once production begins, it may not be possible to cancel the order.

To prevent returns because the wrong reels or parts were ordered, please use the Hannay Reels Spec Worksheet (either online or from our Order Accessory Guide) when specifying reels. Be sure to include any size, weight, pressure and/or material compatibility limitations for the application.

In the event that an item does need to be returned for credit, repair or replacement, prior approval must be obtained from Hannay Reels. Upon your request, we will send a Return Goods

Authorization (RGA) form. A signed copy of this form must accompany the material when returned to us, with the RGA number clearly showing on the outside of the box—a label is provided to you that you can print and attach. No product will be accepted for return or credit without an authorized RGA number.

All material must be returned prepaid, unless otherwise noted on our RGA. No return will be accepted that has been damaged due to improper return packaging, tampered with or altered from its original condition. Our restocking and handling fee is a minimum of 25% for standard catalog reels and parts. Custom reels specially built to customer specifications cannot be returned for any reason.

Hannay Reels Spec Worksheet

To specify Hannay reels, fill out this simple form and mail, fax or email it to your dealer.
Photocopy this page or download and print from hannay.com

1. Who is the reel for?

Contact		Date / /	
Company		Position

	<input type="radio"/> National Standard Thread (NST)	<input type="radio"/> British Standard Pipe (BSP)	

☐ **CABLE** (check one): ☐ Live* ☐ Storage only

*Number of conductors, or wire gauge, required:

*Number of connectors:	Cable weight:	Cable length:
*Voltage:	Outside diameter:	
*Amperage (live application only):	Bend radius:	

Indicate your custom specifications

3. What features does the reel need? Check type of rewind:

☐ **MANUAL REWIND**

<input type="radio"/> Disc rewind (hand over hand)	<input type="radio"/> Gear-driven crank	<input type="radio"/> Direct crank (permanent or removable)	<input type="radio"/> Chain-driven crank
--	---	---	--

☐ **POWER REWIND**

<input type="radio"/> Spring	<input type="radio"/> Air	<input type="radio"/> Electric (voltage):	<input type="radio"/> Hydraulic
------------------------------	---------------------------	---	---------------------------------

Type of installation (check one): ☐ Floor ☐ Wall ☐ Overhead ☐ Vehicle

Temperature Range:	Environment:
Accessories (if any):	Hose/Cable Stop: <input type="radio"/> Yes <input type="radio"/> No

Roller Assemblies:

Finish: ☐ Painted steel (standard) ☐ Aluminum ☐ Polished ☐ Unpolished ☐ Stainless steel ☐ Polished ☐ Unpolished

Check type of installation and roller position for spring reels:

<input type="radio"/> Drag Position SR	<input type="radio"/> Lift Position VR	<input type="radio"/> Stretch (no roller) Position TR	<input type="radio"/> Wall Mount Position TR	<input type="radio"/> Recovery (pick-up) (no roller)
				
<input type="radio"/> Constant tension available on all roller positions				

Indicate your custom specifications

4. Specifying Location of Components

Optional Location of Components:

Location of the inlet, outlet riser, and rewind mechanism can be varied to meet your requirements and **must be specified on your order**. Unless otherwise specified, most reels will be shipped as **Right Top Rewind** with the inlet, outlet riser, and rewind mechanism on the operator's right.

☐ **RT - Right Top Rewind**
Standard - Always look at your reel from this position to determine right hand or left hand.

☐ **RB - Right Bottom Rewind**

☐ **LT - Left Top Rewind**

☐ **LB - Left Bottom Rewind**

Note: Use component location initials as suffix after model number (ie: EF32-23-24 RT)

5. Please note size and/or weight limitations for your installation

Reel Product News

Portable Reels for 1" Forestry and Standard Lay Flat Hose

Hannay Reels offers two lightweight and portable hose storage reels – ideal for Forestry lay flat or Standard lay flat hose – when extra lengths are needed in an emergency.

Model C16-10-11

- Small, lightweight, durable.
- Adjustable cam-lock drag brake.
- Permanent crank rewind.
- For forestry lay flat hose, extension cord or rope.

Model C16-10-11
shown with optional red finish

Model C20-14-16

- Strong, portable.
- Adjustable cam-lock drag brake.
- Permanent crank rewind.
- Optional pin lock available.
- For forestry lay flat hose, standard lay flat hose, extension cord or rope.

Model C20-14-16
shown with optional red finish
